Chris and [REDACTED]

When we bought XRP at .0037, we thought this Jed thing will pass and the TEAM is what we bet on

I think this regulatory stuff will PASS too, and any scare is a good chance to ADD because we believe in the TEAM and the END POINT

Thanks again and happy holidays

I hope you are getting a well deserved vacation in Hawaii.

I have been communicating with [REDACTED] and I think we can fill the rest of your round 2mm ish.
I am getting already around 0.5mm interest and I have explained to people of this regulatory risk.

We believe in the team, [REDACTED] especially of her work, and we are okay to take this risk.

Talk soon, we appreciate this opportunity to let us add.
